- 1 A baby boy is sitting in a child's chair with his right elbow resting on a tiny side table, his cheek propped against the back of his right hand. He is fast asleep. He's wearing a small ten-gallon hat and has a pair of binoculars under his left arm. Two small lamps are beside him. One is on the table and the other is lying on the floor. He looks like a little adventurer, but in truth he's not dreaming of the great unknown — only of his next snack. (89 words)
- 2 In this picture, a donkey is pulling a small cart on a wide, empty road. Several people, some of whom look like children, are sitting in the cart, and one man is walking next to the donkey to guide it. The land looks dry and flat, and there are no houses or trees around. The sky is bright and clear. The people seem to be traveling together in the countryside. The scene shows simple daily life, where animals are used to carry people from one place to another. (88 words)
- 3 This picture shows a model of human teeth surrounded by tiny construction workers.

Forklifts, tools, traffic cones, and other equipment make the scene look like a construction site, as if the teeth were a building under repair. This humorous scene suggests that dental care is not a simple or automatic process. Just as buildings require constant maintenance and teamwork, our teeth also demand regular attention and steady effort. The image reminds us that neglecting small daily habits can eventually lead to serious health problems. (84 words)
